

Member Guidelines:

- Be excellent to each other.
- Failure is a means to success.
- Lack of knowledge is an opportunity, not an obstacle.
- Your experience here is what you make it.
- Any and all illegal activity is strictly forbidden; any and all subversive and creative activity is strongly encouraged.
- Pick up after yourself - leave the space better than you found it.
- Personal items must be confined to the back storage area and be labelled with your name.
- No animals (except service animals).
- No unsupervised children.
- Lost and found items, animals, and children will be held for 30 days, then used for parts.
- Members who profit from objects they manufacture must reimburse the Makerspace for equipment use costs.
 - Reimbursement can be in the form of mentorship via a class, product (with approval), or equipment (with approval).
- Members can bring guests to the Makerspace, but are responsible for their guests' behavior.
- Only members are allowed to use power tools; your guest may assist, but not operate tools such as power saws, drills, sanders, or other equipment.
- Some tools require specialized training; only those with training may use these tools.
 - Training is by class if one exists, or by personal instruction from a qualified member if a class does not exist
 - Members are encouraged to organize and teach classes.
- Members must sign a liability/safety waiver
- Members consent to being on camera while at the Makerspace
 - Video will not be intentionally publicly released or sold.
 - Concerned members are encouraged to actively participate in security-related activities.
 - Video to be used for Makerspace purposes only including but not limited to
 - Security
 - Seeing if anybody is in the space before leaving home
 - Machine vision and AI research
 - Any video or pictures taken in the Makerspace will only be used for publicity purposes with the consent of all members, guests, and artificial

intelligences involved.

Youth Members:

- minors are welcome as Makerspace members
- minors 15 and over are allowed unsupervised access to the Makerspace
 - provided their parent/guardian has signed a safety/liability waiver on their behalf
- minors under the age of 15 must be accompanied at all times by a parent/guardian to use the Makerspace.
 - no membership is required for the parent/guardian in this case, provided they aren't using the tools or space, only providing supervision.
- minors may not bring guests into the space outside of open house events
- minor member hours are restricted; no access between 11pm and 8am

Benefits of Membership

- Various advanced electronic prototyping tools.
- Sturdy workbenches to host and work on almost any project.
- Business class internet connection.
- Soldering station, multimeters, and other electronics tools.
- Access to our extensive library of books.
- Access to various gear, toys, and tools.
- Access to our very knowledgeable pool of members (from engineers, to software designers, to artists, to textile specialists, to local business owners, to experienced game developers, our members are awesome).
- Access to member research projects and workshops.
- Advanced electronic prototypes and projects.
- Access to member only classes and a 20% discount on class fees (class supplies, if applicable, are still full price).
- The leadership of the Makerspace will, where possible:
 - Pursue strategic partnerships with other businesses to negotiate discounts or other benefits for Makerspace members.
 - Negotiate reduced rates on technology-related events.

Instructors

- Teach a specific topic or topics.
- Teach two classes per month for a reduced rate membership.
- Work with the class coordinator to schedule classes and with the marketing team to advertise classes.
